Professional Summary

I am a passionate developer with an avid interest in web development & app development. Over the years, I have worked on several solutions with designers, engineers & software architects in areas that cut across retail, hospitality & enterprise solutions using diverse tools. I love working on innovative solutions using modern tools. I aspire to be a profound software craftman with a focus in systems design, system architecture & system compositions, and I thrive to learn the neccessary skills to pursue my goals.

Technical Skills
